-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

***Election/Restriction***

Restriction to one of the following inventions is required under 35 U.S.C. § 121:

Group I: Claims 1-12, drawn to the products such as a measuring and storage container, classified in Class 206, subclass 459.5 and others.

Group II: Claims 13-15, drawn to a method of measuring and storing food, classified in Class 53, subclass unknown.

The inventions are distinct, each from the other because of the following reasons:

Inventions [II] and [I] are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (M.P.E.P. § 806.05(f)). In the instant case the product as claimed can be made by another and materially different process such as by providing the storage container without a lid or the storage container for holding small tool parts instead of food or without storing the container in a freezer.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because by their different classification and because they are capable of separate manufacture, use and sale, restriction for examination purposes as indicated is proper.

Art Unit: 3728
